SUSTAINABILITY

Authenticated In-House Sustainability Structures

We aim to create a workplace that corresponds to our own established goals for sustainable tourism through sustainability training and incentive programs, internal sustainability units and implementing a supplier code of conduct to meet sustainability standards.

Environmental Conservation

We aim to gradually reduce the carbon footprint of our corporation. We aim to adopt a 99% paperless process across all operations while also kickstarting multiple environmental conservation projects that match our revenue in order to give back to this plentiful island.

Community-based Sustainability Projects

Our aim is to include the community in our sustainability attempts, we plan to create an ecosystem linked to business within rural communities, as well as a nanotech water purification project among other projects in order to give back to our community.
